

Tape to avoid bed bugs

# 8thCAL™

## The Guard-Tape for Bed Bug

### Product features

- **Strong adhesion stops enter and spread !**

*The strong adhesive surface, which bed bugs dislike, prevents them from entering and spreading.*

- **Safe organic (food additive) repellent !**

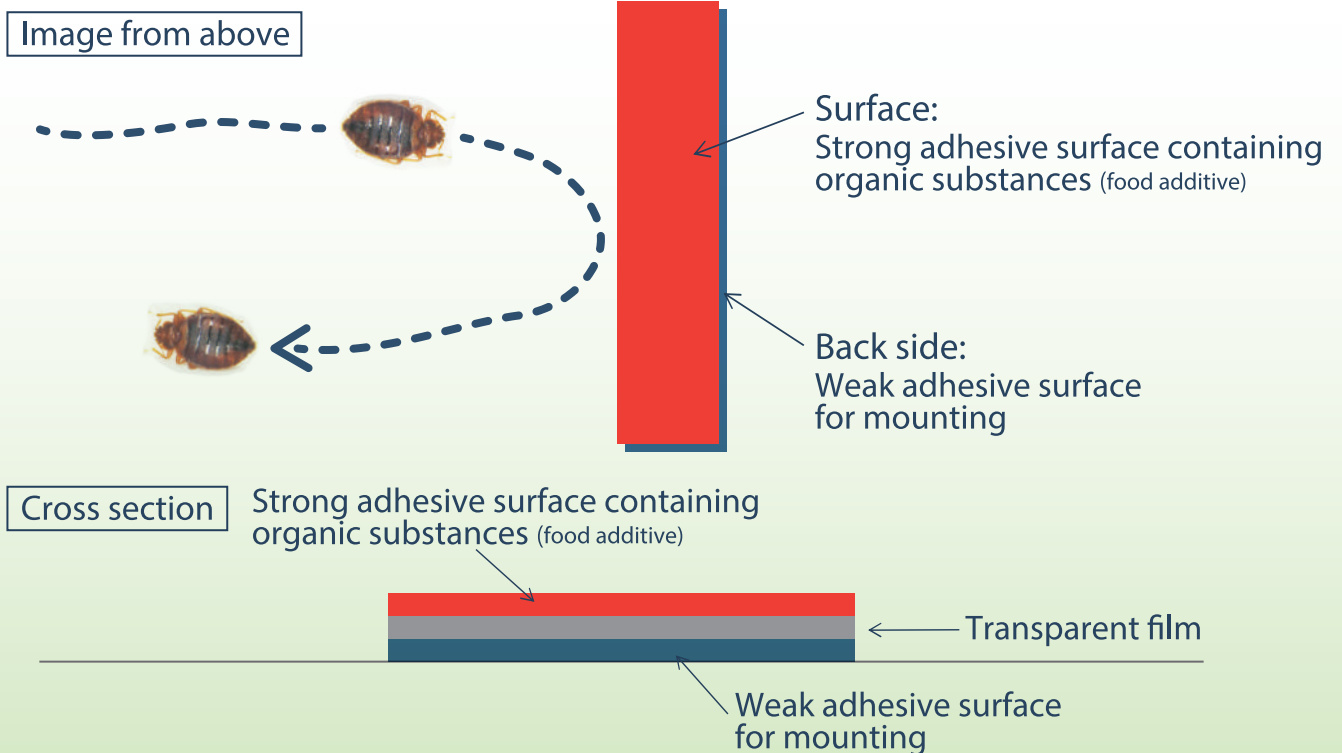

*The highly concentrated organic substances (food additive) blended into the adhesive surface provides a repellent effect.*

- **Double-sided tape for easy installation !**

*The adhesive backing is releasable and does not leave adhesive marks, for easy removal.*

## How to install

### 【Use in a room with bed bugs】

To prevent bed bugs from spreading to neighboring rooms, attach this product around doors, electrical outlets, and power wiring.

### 【Use to prevent blood sucking from bed bugs】

Attach this product around the foot of the bed to protect against bedbug bloodsucking at bedtime.

## Precautions for use

- Do not touch, step on, or get clothes on the strong adhesive surface.
- Keep out of pets.
- After use, slowly peel off the slightly adhesive surface and dispose of it as general waste.
- Do not use for any purpose other than the specified purpose.
- Do not disassemble the main body.
- Do not place it near a fire or in a place where it gets wet.
